### 2. Basis of preparation

The condensed interim financial statements for the full year ended 31 December 2024 have been prepared in accordance with SFRS(I) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last interim financial statements for the period ended 30 June 2024.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim financial statements are presented in Singapore dollar which is the Company's functional currency and all values are rounded to the nearest thousand (S\$'000) except when otherwise indicated.

#### 2.1 New and amended standards adopted by the Group

The Group has adopted all the new and amended standards which are relevant to the Group and are effective for annual financial period beginning on or after 1 January 2024

The adoption of these standards did not have any material effect on the financial performance or position of the Group and the Company.

### 2. Basis of preparation (cont'd)

### 2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2023.

#### E. Notes to the condensed interim consolidated financial statements For the financial year ended 31 December 2024

#### 2. Basis of preparation (cont'd)

#### 2.2 Use of judgements and estimates (cont'd)

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included below:

#### Ability to renew the land lease

The current land lease is 30 years, and the Group expects to seek the relevant authorities' approval for the extension of the lease for a further term of 30 years before its expiration on 13 June 2043. The school site is zoned exclusively for use by an educational institution and the buildings have also been purpose-built for use as a school only. The school buildings have an estimated use for 50 years based on the assets' expected utility to the Group and the future economic benefits embodied in the assets. The judgement applied on the ability to renew the land lease at the end of 30 years is significant to the determination of the depreciation period of 50 years for the school buildings.

The carrying amount of the school buildings as at 31 December 2024 was S\$148,058,000 (31 December 2023: S\$151,714,000).

Management is of the opinion that there are no significant estimations made in applying accounting estimates and policies that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### 3. Seasonal operations

The Group's business is not affected significantly by seasonal or cyclical factors during the financial period.

#### 4. Segment and revenue information

The Group operates in Singapore in one business segment to provide education under a foreign education system. Substantially all revenue, expenses, assets and liabilities are derived from operations in Singapore.

#### Estimating average student life for registration fees recognition over time

The Group charges non-refundable registration fees to new students who register with the school. The performance obligation is determined to be satisfied over the estimated student life in the school. ### 10. Derivatives (cont'd)

In 2022, the Group entered into interest rate swaps with a financial institution with notional amount of S\$60,000,000 to partially hedge its exposure to interest rate risk on its variable rate borrowings from the same financial institution. The interest rate swaps entitle the Group to receive, on a quarterly basis, floating interest equal to prevailing SORA and pay a fixed rate of interest at rates ranging from 1.74% to 1.86% (2023: 1.74% to 1.86%) per annum. The interest rate swaps mature on 16 February 2027.

The carrying value of the derivatives approximates their fair values at 31 December 2024 and 31 December 2023 based on the methods and assumptions used to estimate their fair values as set out in Note 21. The Group does not apply hedge accounting and records interest rate swaps at fair value with changes in value recorded in profit or loss.

#### 21. Fair value of financial instruments

#### Fair values

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction, other than in a forced or liquidation sale.

Management has determined that the carrying amounts of cash and cash equivalents, trade and other receivables, trade and other payables, and bank borrowings reasonably approximate their fair values because these are mostly short term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the end of the reporting year.

The fair values of the non-current deposits, staff housing deposits and other long term asset approximate their carrying value and are estimated using the discounted estimated cash flow analysis. Where repayment terms are not fixed, future cash flows are projected based on management's best estimates. The discount rates used are the current market incremental lending rates for similar types of lending and borrowing arrangements.

#### A. Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 Quoted prices (unadjusted) in active market for identical assets or liabilities
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

#### 21. Fair value of financial instruments (cont'd)

#### B. Assets measured at fair value

31 Dec 2023			
Financial asset: Derivatives - Interest rate swaps	10	1,410	1,410

Methods and assumptions used to determine fair values

Interest rate swaps are valued using a valuation technique with market observable inputs, primarily forward rate curve and discount rate curve. The most frequently applied valuation technique includes swap models, using present value calculations.

#### **Review of Balance Sheet as at 31 December 2024**

Total property, plant and equipment and right-of-use assets at 31 December 2024 amounted to \$212.12 million compared to \$221.57 million at 31 December 2023. The decrease of \$9.45 million was due mainly to the depreciation charge for the financial year, offset by the additional right-of-use assets and other plant and equipment of \$3.41 million and \$1.28 million respectively during the financial year.

Derivatives (current and non-current) at 31 December 2024 of \$0.83 million (2023: \$1.41 million) represent the fair values of interest-rate-swap contracts entered into by the Group to hedge against rising interest rates on bank borrowings. More information is provided in Note 10 of the Condensed Interim Consolidated Financial Statements.

Inventories of school uniforms, books and stationery for sale at the school shop were \$0.50 million at 31 December 2024 compared to \$0.45 million at 31 December 2023.

Trade receivables comprised amounts attributable to tuition fees, registration fees, school shop revenue and other revenue. Trade receivables of \$0.98 million at 31 December 2024 were higher compared to \$0.92 million at 31 December 2023 due mainly to the timing of collection of the receivables for the reporting year.

Other receivables and deposits at 31 December 2024 were \$0.57 million compared to \$0.51 million at 31 December 2023.

Prepayments at 31 December 2024 were \$1.74 million compared to \$1.62 million at 31 December 2023.

The Group's cash and cash equivalents amounted to \$53.65 million at 31 December 2024 and \$55.68 million at 31 December 2023. The decrease was due to cash movements (cash generated or cash used) in operating, investing and financing activities as explained in the Review of Group cash flow below.

Trade and other payables and liabilities were lower at \$1.33 million at 31 December 2024 compared to \$1.82 million at 31 December 2023 due mainly to timing of payments of operating expenses.

Total fees received in advance (current and non-current) was \$32.55 million at 31 December 2024 and \$36.11 million at 31 December 2023. The total fees received in advance at 31 December 2024 and 31 December 2023 comprised tuition fees collected before the commencement of the next semester in January, and registration fees collected upon enrolment. The advance collection was higher in FY 2023 due mainly to the timing of the receipts.

Lease liabilities (current and non-current) were \$4.66 million at 31 December 2024 compared to \$6.41 million at 31 December 2023. The variation in the lease liabilities was due to the expiration and renewal of the lease contracts for teachers' apartments.

Borrowings - Bank Loan (current and non-current) was \$84.23 million at 31 December 2024 compared to \$90.48 million at 31 December 2023. The Group paid the quarterly instalment of \$1.54 million each in January, April, July and October 2024. More information on the bank loan facility is disclosed in Note 15 in the Condensed Interim Consolidated Financial Statements.

Goods and Services Tax payable of \$3.45 million and \$3.19 million at 31 December 2024 and 31 December 2023 respectively arose mainly from the billing of next semester's tuition fees. GST rate applicable in the billing was 9% in FY 2024 and 8% in FY 2023.

Deferred tax liabilities amounted to \$5.41 million at 31 December 2024 compared to \$5.96 million at 31 December 2023. The net deferred tax liabilities arose from the tax effect on temporary differences between the net book value and the tax-written-down-value of qualifying assets.
